## PROFESSIONAL STATEMENT

I'm a passionate software engineer and tech educator with experience leading innovative projects and mentoring aspiring developers. As the Co-Founder of CodeMaxed, I focus on delivering impactful software solutions for businesses, and as a Student Success Instructor at Metana, I guide students through hands-on, industry-focused training. I'm motivated to build practical, scalable solutions that solve real-world problems, while constantly learning and exploring new technologies to stay ahead.

## WORK EXPERIENCE

- **Student Success Instructor / Frontend Developer @ Metana** **MAY 2024 – Present**  
As a Student Success Instructor at Metana, I will have the invaluable opportunity to collaborate closely with experienced professionals while delivering educational support and guidance to students enrolled in our bootcamps. This role offers me a unique platform to contribute to the development of the next generation of developers, all while fostering personal growth and continuous skill enhancement.
- **Co-Founder @ Codemaxed** **Present**  
A software development company established with a group of three like-minded developers. Together, we work on a wide range of projects for clients, from web and mobile applications to custom software solutions. Our goal is to deliver high-quality, efficient, and user-friendly products that meet the specific needs of each client. I'm passionate about creating impactful technology that helps businesses succeed, and I'm excited to be part of a team that's dedicated to pushing innovation forward.

## EDUCATION

- **BENG Hons Software Engineering | University of Westminster**  
Currently completing my final year, focusing on advanced software development, systems design, and emerging technologies.
- **Foundation Certificate in Higher Education | Informatics Institute of Technology**  
Successfully completed a foundation program providing essential knowledge and skills in computing, mathematics, and problem-solving, preparing for undergraduate study in software engineering.
